

Precondition:
nxn 2D array of ints, wherein numbers
increase across any row (L->R)
and down any column...

Start with the first
integer of the last row

Example 1:

1	2	3
2	3	4
3	4	5

Example 2:

10	50	90
11	75	100
55	80	200
